VOLUME 27 Annual Index

A

Andrews, Kim. *See* Kugler, Penny.

B

Barron, John M., and **Mark A. Loewenstein.** Textbook treatments of the financial market in the IS-LM model. 27 (2): 156–69.

Borg, Mary O., and **Stephen L. Shapiro.** Personality type and student performance in principles of economics. 27 (1): 3–25.

Brasfield, David, Dannie Harrison, James McCoy, and **Martin Milkman.** Why have some schools not experienced a decrease in the percentage of students majoring in economics? 27 (4): 362–70

Burgess, John. *See* Lee, Julie.

C

Coates, Dennis. A diagrammatic demonstration of public crowding-out of private contributions to public goods. 27 (1): 49–58.

Conrad, Cecilia A. Where have all the majors gone? Comment. 27 (4): 376–78

D

Davis, George. The macroeconomics curriculum: A proposal for change. 27 (2): 126–38.

E

Erekson, O. Homer, Prosper Raynold, and **Michael K. Salemi.** Pedagogical issues in teaching macroeconomics. 27 (2): 100–7.

Eubanks, Carlie. *See* Salemi, Michael K.

F

Froyen, Richard T. The evolution of macroeconomic theory and the implications for teaching intermediate macroeconomics. 27 (2): 108–15.

G

Gelles, Gregory M., and **Douglas W. Mitchell.** Returns to scale and economies of scale: Further observations. 27 (3): 259–61.

Graves, Philip E., Robert L. Sexton, and **Dwight R. Lee.** Slope versus elasticity and the burden of taxation. 27 (3): 229–32.

H

Hackett, Steven. Book review. *Government and business: The economics of antitrust and regulation.* David Kaserman and John Mayo. 27 (4): 379–80.

Hackett, Steven. Book review. *Business and government in the global marketplace.* Murray Weidenbaum. 27 (4) 379–80.

Harrison, Dannie. *See* Brasfield, David.

Haupert, Michael J. An experiment in comparative advantage. 27 (1): 37–44.

Haupert, Michael J. Labor market experiment. 27 (4): 300–8.

Helwege, Ann. Preventive versus curative medicine: A policy exercise for the classroom. 27 (1): 59–71.

K

Kelly, G. Wayne. *See* Tahai, Alireza.

Kleiman, Ephraim, and **Yona Rubinstein.** Sex and the Leuthold free rider experiment: Some results from an Israeli sample. 27 (3): 238–57.

Kniest, Paul. *See* Lee, Julie.

Kugler, Penny, and **Kim Andrews.** Graphical analysis and the visually impaired in undergraduate economics courses. 27 (3): 224–28.

L

Lage, Maureen J., and **Michael Treglia.** The impact of integrating scholarship on women into introductory economics: Evidence from one institution. 27 (1): 26–36.

Lee, Dwight R. *See* Graves, Philip E.

Lee, Julie, John Burgess, and **Paul Kniest.** Teaching Australian first-year economics courses—In search of a bet-

ter way. 27 (1): 85–90.
Loewenstein, Mark A. *See* Barron, John M.

M

Maeshiro, Asatoshi. Teaching regressions with a lagged dependent variable and autocorrelated disturbances. 27 (1): 72–84.
Manning, Linda M. Economics on the Internet: Electronic mail in the classroom. 27 (3): 201–4.
Margo, Robert A., and **John J. Siegfried.** Long-run trends in economics bachelor's degrees. 27 (4): 326–36.
Marks, Stephen G., and **Michael G. Rukstad**. Teaching macroeconomics by the case method. 27 (2): 139–47.
McCorkle, Sarapage, and **Michael Watts.** Free riding indexes for Ukrainian economics teachers. 27 (3): 233–37.
McCoy, James. *See* Brasfield, David.
McDonald, Ian M. The optimal level and disposition of saving and the mix of monetary and fiscal policy in intermediate macroeconomics. 27 (2): 170–92.
Merz, Thomas E. Willie Mays: Meet John Nash. 27 (1): 45–48.
Milkman, Martin. *See* Brasfield, David.
Mitchell, Douglas W. *See* Gelles, Gregory M.
Mixon, Franklin G., Jr. Crime in the classroom: An extension. 27 (3): 195–200.

P

Palmini, Dennis J. Using rhetorical cases to teach writing skills and enhance economic learning. 27 (3): 205–16.
Pieper, Paul J. *See* Willis, Rachel A.
Porter, Tod S. and **Teresa M. Riley**. The effectiveness of computer exercises in introductory statistics. 27 (4): 291–99.

R

Ray, Margaret A. Total quality management in economic education: Defining the market. 27 (3): 276–83.
Raynold, Prosper. *See* Erekson, O. Homer.
Riley, Teresa M. *See* Porter, Tod S.
Rodgers, Yana van der Meulen. A role-playing exercise for development and international economics courses. 27 (3): 217–23.
Rouse, Cecilia. Book reviews. *Race and gender in the American economy: Views from across the spectrum.* Susan F. Feiner. 27 (4): 380–82.
Rubinstein, Yona. *See* Kleiman, Ephraim.
Rukstad, Michael G. *See* Marks, Stephen G.

S

Salemi, Michael K. Microeconomic concepts students should learn before intermediate macroeconomics. 27 (2): 116–25.
Salemi, Michael K. Where have all the majors gone? 27 (4): 323–25.
Salemi, Michael K., and **Carlie Eubanks.** Accounting for the rise and fall in the number of economics majors with the discouraged-business-major hypothesis. 27 (4): 350–61.
Salemi, Michael K. *See* Erekson, O. Homer.
Saunders, Phillip. Book review. *The structures of a modern economy: The United States, 1929–1989.* Kenneth E. Boulding. 27 (3): 284–86.
Sexton, Robert L. *See* Graves, Philip E.
Siegfried, John J. Book review. *The economist's handbook: A research and writing guide.* Thomas L. Wyrick. 27 (3): 286–88.
Siegfried, John J. *See* Margo, Robert A.
Shapiro, Stephen L. *See* Borg, Mary O.
Sheffrin, Stephen M. Bringing insights from research into the teaching of intermediate macroeconomics. 27 (2) 148–55.
Spencer, Roger W. Monetary policy at work: Lessons from the FOMC transcripts. 27 (4): 309–22.

T

Tahai, Alireza, and **G. Wayne Kelly.** An alternative view of citation patterns in quantitative literature cited by business and economic researchers. 27 (3): 263–75.
Treglia, Michael. *See* Lage, Maureen J.

W

Walstad, William B. Recent research on the economics major: Comment. 27 (4): 371–75.
Watts, Michael. *See* McCorkle, Sarapage.
Willis, Rachel A., and **Paul J. Pieper**. The economics major: A cross-sectional view. 27 (4): 337–49.
